FD720/620/240 Aluminum Sheets 5"

Disposable pan liners for the FD720 and FD800 moisture balance – 500 pans/package. These liners protect the heavy weigh pans from test sample residue. Using the liners makes tests faster and more repeatable as the heavy pans don't need to be cleaned between tests and the lack of residue means the only moisture will come from the product sample... not previous tests!

They will also work on our older FD620 and FD240 moisture determination balances.

SKU FD720PANS

Hard Plastic Cover – FD720 / 800

Cover fits over either the FD720 or FD800 Moisture Balance. Improves stability in environments where air currents are variable due to HVAC and or movements. Protects from drips and dust. Front opening allows for testing without moving the cover. Rear openings for power and communications cables.
